

Self-Help Open To B.C. People Reeves Suggest

Vigorous Support of Home Products, Extension of Credit by Banks in Aid of Basic Industries and Concerted Pull in Common Cause Would Invite Prosperity

POINTING the way to measures which the people of British Columbia have largely within their own power to employ for the upbuilding of trade and the encouragement of enterprise leading to renewed prosperity, constructive suggestions were advanced before a meeting of the unemploy-ment committee of the Cabinet yesterday by a delegation of the Fraser Valley Reeves' Association. Few of these suggestions call for governmental action, nearly all being measures of self-help that the people can apply for themselves.

The proposals are summarized as follows:
United co-operation on the part of all citizens to buy British Columbia products, extending at home the first preference for commodities and articles produced with British Columbia initiative, capital and labor; this to include the whole range of goods grown, obtained from British Columbia raw materials or manu-factures.

EXTENSION OF CREDIT
Consideration by financial houses and banks of the policy of extend-ing an increased measure of credit, within reasonable limits, to enter-prises which have as their founda-tion the upbuilding of the basic wealth of the province; provided that such ventures are under able management, and operating in a manner to inspire confidence.

Private or assisted efforts on the part of individuals who have a knowledge of farming, to get back to the land for their own immediate support, and away from the cities where they may not have ready opportunity to succeed. Such indi-viduals, it was suggested, to the committee, could be provided with a reasonable measure of assistance in acquiring land to settle on.

Representations, it was further suggested, could be made to the Federal Government, to insure that no families who are without suf-ficient means of maintaining them-selves in British Columbia for a period sufficient to enable their se-curing adequate start here, would be allowed to migrate to British Columbia points from other parts in Canada, or from other countries, while conditions are as at present.

CONCERTED ACTION
United action, without party or prejudice, on the part of all prin-cipal citizens to work together in Continued on Page 2, Column 6

RELIEF MEASURE PASSED READING

Bill to Provide for Unemploy-ment to Receive Final Con-sideration Today

OTTAWA, July 31 (CP).—The bill to provide for unemployment and farm relief and for "peace, order and good government," was given second reading in the House of Commons tonight, and will be considered in committee when the House meets again tomorrow forenoon.

The second reading was carried without division after the Liberals had vigorously attacked the measure.

RAISES OBJECTION
One objection raised by the Opposition was that it did not limit the amount that the Government might expend to meet such needs for relief as might develop. Another was that unemployment relief should not be provided for in the same bill as "peace, order and good government."

Rt. Hon. Mackenzie King led the attack on these provisions, declaring that it was depriving Parlia-ment of control of expenditures—one of the fundamental principles of constitutional government.

HON. C. J. DOHERTY IS LAID TO REST

Last Respects Are Paid in Mon-ast to Former Minister of Justice

MONTREAL, July 31 (CP).—Cabinet ministers and former Cabinet ministers of the Dominion Govern-ment today paid last respects to a former colleague when Hon. Charles J. Doherty, former Minister of Jus-tice, was laid to rest in Cote Des Neiges Cemetery after a solemn service at the Church of the Assen-sion of Our Lord.

Mrs. Deschamps, auxiliary bishop of Montreal, received the body at the church, and the service was conducted by Doherty's son, Rev. Marcus C. Doherty, S.J., assisted by Father W. R. McDonald and Father Gerald McShane.

Canadian National Ferry Refloated By American Tugs

Prince David Grounds Near Point Wilson in Dense Fog—Passengers Brought Here—Salvage King Sent to Pull Ship Off Rocks but Finds Task Completed

THE Ss. Prince David, operated on the triangle run by the C.N.R., was floated from her stranded position off Point Wilson late yesterday afternoon by three tugs, only a short time after the Salvage King left this port to perform the same service.

Rallying Forces For Coming Fight

QUEBEC, July 31.—Organizers of the Liberal and Conservative parties in this province were busy today arranging rallies and conventions for the selection of candidates for the general elections in Quebec on August 24.

Many Surprises in Provincial Voters' List for This Year

British Columbia Roll for 1931 Shows Drop of Nearly 9,000 Persons, With Gains at Vancouver but Losses Here

SEVERAL surprises came to light yesterday with the completion of returns for forty electoral districts of the province in the compilation of the provincial voters' list for 1931. Chief among these was a drop of 8,888 names from the number shown in 1928, in spite of a gain of 3,607 registered voters in Vancouver Centre, balanced by a nearly corresponding loss of 3,594 voters in Victoria.

LUMBER MILL AT EXTENSION LOST

Fire Destroys Plant and Cabins Near Nanaimo—50 Men Fight Flames

NANAIMO, Aug. 1.—Fire which broke out in the Frank Beban Lum-ber Company mill at Extension late last night destroyed the plant and 7,000,000 feet of lumber. Early this morning the fire was still raging and several cabins were ablaze. There was no other property en-dangered.

The fire broke out about 11 o'clock and made rapid headway. By mid-night fifty men under Forest Ranger Conway were battling with the blaze and were able to check its spread only with the greatest difficulty.

The mill has been operating steadily and 250 men had been thrown out of employment. The plant was valued at \$50,000 and the loss of the lumber will more than triple the figure for the damage.

Incidentally, all those who could have voted in 1928 and did not do so, were struck from the list, ap-proximately 20 per cent of those eligible losing their franchise at that time.

STANDING IS SHOWN

PAYMENT WAS FOR VALUABLE SERVICES

TORONTO, July 31 (CP).—Ap-proval of the payment to John Aird, J. of Toronto, of \$40,000 by the Ontario Hydro-Electric Power Com-mission was today given by the executive of the Ontario Municipal Electric Association. In a special session here the association decided the transaction was "for valuable services" and was in the best in-terests of the province.

SESSION IS SENSATIONAL TO THE LAST

Adjournment of Parliament Made as Economy Com-mission Report Filed

CUTS RECOMMENDED OF DRASTIC NATURE

LONDON, July 31 (CP).—Ad-journment of both Houses of Parlia-ment today, until October 20, was made subject to the power of the Lord Chancellor, on behalf of the House of Lords, and of the Speaker of the Commons, on behalf of the Lower House, to summon the mem-bers at an earlier date "if it be nec-essary in the public interest."

MUCH SPECULATION
The international financial situa-tion is the only emergency con-templated, but the conferring of this special power upon the Chancellor and Speaker has given rise to much speculation. The last time Parlia-ment was reconvened in recess was in 1924 in connection with the Irish boundary question. In the meantime the Zinoviev letter had cropped up, and the first Mac-donald administration went out of office.

The term just ended kept up its reputation for sensations to the last. Today there was published the re-ports of the Government's economy commission, recommending cuts of the most drastic nature in the na-tional expenditures, designed to ef-fect a saving of £26,500,000 (about \$482,500,000) in the first year of their full operation.

OPPOSITION CERTAIN
Reductions and other alterations in the "dole" system, amounting to £65,000,000 (about \$1,170,000,000) of the total, are almost certain to meet with the vigorous opposition of large sections of the Lower House.

Until the House meets again a committee of five cabinet members, including Prime Minister Macdonald and Chancellor Snowden, will study the report.

The illness of David Lloyd George, the Liberal leader, caused specula-tion as to what might happen if he were unable to return to active par-liamentary life.

WOULD ACT AS TONIC
While many were not optimistic regarding the future of the Liberal party if the leader should have to retire, members of all parties ex-pressed hope and belief that his knowledge that his presence is needed would act as a tonic to re-store the fiery Welshman's health.

SEARCHING FOR HISTORIC SITE

Seek Mementos Buried by Strange When Taking Pos-session for Crown

ALERT BAY, July 31.—Buried treasure is being sought by an expedition that left here yesterday morning for Nigel Island, off the north coast of Vancouver Island. The little party, which sails under the auspices of The Victoria Daily Colonist, is not searching for "pieces of eight" nor for the hidden loot of bold pirates but is making a pre-liminary examination for the pur-pose of ultimately developing an in-sertive hunt for something that is just as valuable—historically and worth a great deal more—than buc-caneer's gold.

GOVERNOR TO BE SWORN IN

J. W. Fordham Johnson Will Take Oath of Office at Ceremony Here Today

At a private ceremony to take place in the Executive Chamber, here, at 11 o'clock this morning, J. W. Fordham Johnson, pioneer busi-ness man of Vancouver, will be sworn in as the fourteenth Lieuten-ant-Governor of the Province.

The ceremony will be conducted in the presence of Premier Tolmie and members of the Executive Council. Mr. Speaker Davis, Chief Justice J. A. Macdonald, Administrator, and the clerks of the Executive Council, and will be confined to brief for-malities. Mr. Johnson will be at-tended by A. M. D. Fairbairn, private secretary.

E. J. Lemire, clerk of the Privy Council of Canada, arrived in the city yesterday, with the new Lieuten-ant-Governor's commission, and Continued on Page 2, Column 2

Pacific Not Looking Tough To Poland and Boardman As They Feast in Turkey

ISTANBUL, Turkey, July 31 (AP).—Rested, well fed and happy, John Poland and Russell Boardman beaked in the adulation of Turkey today and began to look around for more worlds to conquer.

Finding nothing quite so hazar-dous and daring as their flight from New York to Istanbul—approx-imately 5,000 miles—which appar-ently established a nonstop record, they were somewhat undecided as to plans.

But the pair were considering a homeward flight, with stops, over India to Tokio, and across the Pacific Ocean or the Bering Sea. As Poland put it, "We have crossed the Atlantic, now the Pa-cific doesn't look so tough."

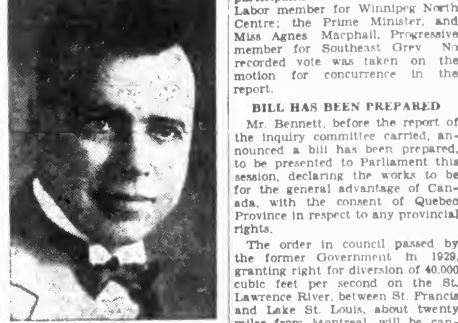

If the eastward route is adopted, it is expected they will again tak-ing within a few days.

Government to Demand Complete Reorganization Of Beauharnois Officers

Proposed Bill Will Cancel Order-in-Council by Lib-eral Administration—New Rights to Be Grant-ed—Further Diversions of Water From St. Lawrence Allowed by Parliament Only

OTTAWA, July 31 (CP).—The future of Beauharnois was outlined in the House of Commons today by Premier R. B. Bennett. The proposals of the Government involve drastic changes in management and method, but they are all directed toward the completion of the great navigation and power scheme.

Appointed Minister of Highways

HON. LEOPOLD MACAULEY, K.C.
Minister of Highways

Cabinet of Ontario Is Rearranged

TORONTO, July 31 (CP).—Cabinet reorganization in the Provincial Government was announced to-night, with the appointment of Hon. Leopold Macaulay, Provincial Sec-etary to the portfolio of Minister of Highways.

George H. Chalmers, M.P.P. for Dundas, is appointed Provincial Secretary in place of Mr. Macaulay. It was also announced the De-partment of Game and Fisheries would be transferred to the Provin-cial Secretary's Department at a later date.

The by-election necessitated by Mr. Chalmers' elevation to the Cab-inet will take place September 9. Mr. Chalmers has been in the Leg-islature for the past two sessions, being elected in the 1929 general election.

MUSEUM HEADS MAKING SURVEY

Noted British Authorities Ar-rive on Coast—Examining Institutions of Dominion

VANCOUVER, July 31 (CP).—Sir Henry Alexander Myers, president of the Museums Association, South Kensington, London, and S. P. Markham, secretary of the organiza-tion, arrived in Vancouver tonight in the course of a trip across Canada in which they are making a survey of Canada's museums and art galleries for the information of their association.

Sir Henry is a trustee of the British Museum, a post which he has occupied since 1926. He is pro-fessor of mineralogy at Oxford and principal of the University of London.

Mr. Markham, secretary of the Museums Association since 1922, was in military service in France from 1915 to 1918 and in India in 1921. He completed the official biography of King Edward VII in 1927 and is the author of the "History of Socialism."

BEAUTIFICATION PLAN REVIVED

Chamber Committee Will Make Determined Move in Direction for City

The Capital City beautification scheme, having for its object the making of the seat of government of British Columbia a place that is worthy of the importance of such a centre, has been unanimously endorsed by the directors of the Cham-ber of Commerce and the special committee which was named to con-sider the scheme.

The committee will be instructed to proceed aggressively with the task in hand. A meeting of the committee will be held early in the week. The situation will then be discussed, and following that a report of what is proposed will be presented.

Suggestions along the line of what might be done were made at the meeting of the directors yesterday afternoon. There can all be con-sidered by the committee. The pro-posal is to have the Provincial Gov-ernment assist in the matter, and it may be that the Government will be asked to have an engineer in-vestigate the project.

READY TO START AGAIN FOR TOKIO

Robbins and Jones Have Fort Worth in Tune for Early Morning Take-Off

SEATTLE, July 31 (AP).—Poised to repeat their attempt at a nonstop refueling flight over the 5,000 miles between here and Tokio, the mono-plane Fort Worth, with her crew, Reg. L. Robbins and Harold S. Jones, Fort Worth, Texas, flyers, tonight was ready for a take-off be-tween 4 and 5 a.m. (P.S.T.) to-morrow.

The flyers, as they gave the ship final adjustments today, expressed the hope of landing in the Japanese city between noon and 6 p.m., Mon-day (P.S.T.). They were highly elated over the performance of the ship in final tests and predicted suc-cess for their venture.

Their first attempt at a nonstop refueling flight to Japan ended at Solomon, Alaska, when the 22-horsepower motor of the plane proved inadequate to carry sufficient gasoline for the 3,000 miles remain-ing for them to cover.

MAKES FORCED LANDING

MOSCOW, July 31 (AP).—The airc-rift dispatch to THE ASSOCIATED PRESS from VICTORIA, B.C., July 30 (CP).—On Tuesday to Victoria where he will be met by Mr. Fordham Johnson as Lieutenant-Governor of British Columbia. E. J. Lemire, clerk of the Privy Council, arrived in Vancouver this morning from Ottawa.

ADMIRAL BYRD ACTIVE AGAIN

Expedition Being Prepared but Plans of Explorer Not Known

By Staff Correspondent
(Copyright, 1931, in North and South America by the North American Newspaper Alliance, Inc.)
BOSTON, July 31.—(AP)—Admiral Byrd is preparing for another expedition, though he declines to discuss it or its destination, or even to admit that preparations are under way.

Much of the preliminary work is being done by Victor H. Czegka, a master sergeant in the Marine Corps now stationed at the Boston barracks. Sergeant Czegka, however, is as uncommunicative as Admiral Byrd.

LITTLE IS KNOWN
But it is known that the marine, who was chief machinist with Byrd's Antarctic expedition, is collecting funds and machinery of various kinds for another Byrd adventure.

Sergeant Czegka is acting under direct orders from Admiral Byrd.

REBELS FACING HEAVY MENACE

Nationalists Join With Manchurians to Effect Enveloping Movement

SHANGHAI, July 31 (AP).—Heavy fighting between the rebel forces of General Shih Yu Shan and reinforced Manchurian allies of the Nationalist Government took place today near Paoing.

The insurgents were seriously menaced by a large-scale enveloping movement.

Co-operating with the Manchurians driving down from the North, General Shih Yu Shan and his Nationalist troops northward to catch the rebels between two armies.

The Mukden army was reinforced before the last day's fighting.

Defences were expected to change hands frequently during the next few days while the Mukden forces attempt to recapture the whole position.

The Nationalists yesterday suffered a severe defeat at the hands of General Shih Yu Shan.

Continued from Page 1

ratified arrangements made for the private ceremony.

Mr. Lemaire complained whimsically that though he has been many times in Victoria, it is always been on pressing business, and he has not yet had sufficient opportunity of seeing the Provincial Capital, to which he has become much attracted.

Mr. Lemaire lunched with Premier and Mrs. Tolmie, and planned to leave at the week-end, after the completion of the ceremony here. He will administer the oath, as on former occasions, to the new Lieutenant-Governor. Mr. and Mrs. Johnson will take up their residence at the Government House today, it is expected.

BEAUTIFICATION PLAN REVIVED

Continued from Page 1

The plan in hand is not to beautify Victoria as a city, but to carry out a plan which would make the whole area included in Greater Victoria attractive as a capital.

J. H. Beatty, M.P.P., explained that the reason why no action was taken at the session of the Legislature was because the proposal was not far enough advanced to warrant such a course. He advised working with the various municipalities concerned and then placing the suggestions before the Government.

Various members present submitted plans which might be considered in connection with the scheme.

SUGGESTED PLANS

Fred B. Pemberton offered the suggestion that an open air swimming pool be provided at Cadboro Bay.

There was a tract behind the extreme high water which was suitable, and the cost would not be too great of removing the surface soil and allowing the water to enter.

R. M. Mayhew, president of the Chamber, was of the opinion that there was nothing to be done more for Victoria than this beautification plan covering a period of years. It would be a great help in connection with the unemployment situation.

C. P. Hill was in favor of spending the unemployment funds in something worth while, and nothing could be better than the beautification of the city.

R. E. B. Ker believed that municipal boundaries would have to be eliminated in the carrying out of such a plan. There should be no sectional feeling in the matter. He suggested that the aid of the city engineer might be asked in drafting a plan.

Thomas Walker referred to his scheme of continuing Memorial Avenue to the top of Mount Douglas.

The park there was now a disgrace, and it would have to be decided who was to take charge of it.

AWAITING DECISION

Reeve Crouch of Saanich said the parks and beaches commission had not failed in its work. The Government had been asked to give a decision as to whether it was going to take over that park, or failing that, the parks and beaches commission would act.

Fred M. McGregor did not believe that the Government would object to taking its share in the beautification scheme. He thought the Government might be asked for an engineer to plan the work.

P. R. Leighton contended that town planning was a special work. He was of the opinion that no Capital

plan was in hand is not to beautify Victoria as a city, but to carry out a plan which would make the whole area included in Greater Victoria attractive as a capital.

SPILLED EGGS CAUSE OF SUIT

Writ for \$1,000 Damages Filed Against Cold Storage Company Here

Spilled eggs were the cause of an action filed in County Court yesterday by Horace T. Oldfield, of Prospect Lake, who is claiming \$1,000 from the Victoria Cold Storage and Terminal Warehouse Co., Ltd., for damages to the plaintiff's eggs.

The plaintiff sets out that the defendant company was negligent and careless in the handling of the eggs in cold storage in that they were stored in proximity to fruit which caused them to be injured and depreciated by mould and rot.

The plaintiff is claiming total damage on 1,500 dozen at 34 cents a dozen, 1930-31 price, making a total of \$510.40 and a depreciation on 1,500 dozen to the extent of 18-1/2 cents a dozen, a total of \$270.75. The amount of the \$1,000 was waived by the court and the case was set for trial at 10 o'clock.

Crease & Crease are acting for the plaintiff. Statement of defence has not been filed.

ST. JOHN, N.B., July 31.—Recommendation that a Dominion survey of the school curriculum, beginning with English, be undertaken, was made by the Provincial Teachers' Association, to the Canadian Teachers' Federation, in session here today.

The recommendation was unanimously accepted by the federation. The executive will assign the survey as a matter of study to one of its provincial divisions.

Action somewhat along this line had already been taken by the Saskatchewan Teachers' Association, according to a report made by Miss H. F. Wolfe, delegate from that province.

ISLAND DRAWS BUSINESS MEN

Inquiries for Opportunities on Vancouver Island Have Been Increasing

An increasing number of residents of modest means from the prairies are casting their eyes in the direction of Vancouver Island as a place in which to live. Inquiries have increased substantially recently, according to those interested in following the movement of settlement.

The disruption in the wheat trade has had a disquieting effect upon those who are engaged in the growing of that commodity, and has also disconcerted those in all lines of business in the prairie provinces. The result has been that an increasing number of these people are seeking opportunities to enter into

business on Vancouver Island instead of continuing where they are. In many instances these prospective settlers are prepared to bring in a modest amount of cash with which to re-enter trade on the coast, either in a commercial way or in farming.

At the offices of the public organizations, as well as in real estate offices, this prospective influx of new residents is noticeable.

Stone Cut From Mount Sir Donald Is Going to Yale

BANFF, July 31.—A solid block of stone weighing two tons has been cut from the side of Mount Sir Donald in the Canadian Rockies to serve as corner stone for the building to be erected at Yale University as a memorial to Lord Strathcona, one of the builders of the Canadian Pacific Railway. The rock was removed by caterpillar tractor from 1,400 feet above the track and moved East on a flat car, the work of removal of the stone from the mountain side occupying two days.

PARK CREATION IS BEING URGED

Seek Sea-Level Parks in British Columbia and Development at Garibaldi

British Columbia has renewed its advocacy of the creation of sea-level parks in the province under Federal control, and is also asking that the Garibaldi area be considered in conjunction with any comprehensive scheme of park development. It was intimated by Premier Tominie at the Legislative Buildings yesterday, Hon. W. S. Loughheed, who is now in Eastern Canada on private business, is to take up this matter with the Dominion Government, it was stated.

In a previous announcement, Premier Tominie stated that the Province would be ready to consider linking up the Garibaldi Park area by road connection to bring the area within the range of motor travel from Mainland centres, by the ultimate development of a loop driveway, covering a magnificent range of scenery.

Provincial action in the matter must wait on the decision of Ottawa in connection with park developments, it was pointed out. Meanwhile the proposal has not been lost sight of, and consideration of the plan may be advanced by Mr. Loughheed on his present visit to Ottawa.

OPPOSE REQUEST TO MOVE ANNEX

Members of Council Support Officials Against Removal of Y.W.C.A. Building

Following out the policy of supporting recommendations of the officials, the City Council, in special session yesterday afternoon, declined to approve an application from the Young Women's Christian Association to be allowed to remove the Y.W.C.A. annex to make way for other buildings, even though the association officers agreed to put the building in condition.

OPPOSE REMOVAL

Prior to the meeting of the Council, the fire wardens' committee held a session, and, after some discussion, were unable to agree to the proposed removal of the annex. The committee members, however, stated the fire chief and the building inspector were opposed to any relaxation of the building by-laws, and the other members of the council were in accordance with the wishes of the committee to support the officials.

REQUEST REJECTED

Both Aldermen H. O. Litchfield and R. T. Williams were in favor of granting the application. Alderman Litchfield referred to a similar request that was granted by the council in 1923, permitting a building to be reconstructed. Alderman Williams moved that the application be approved to prevent delay and to aid the association to proceed with the work proposed. There was no second to the resolution. On the council division, Alderman Litchfield and Williams voted against the resolution to reject the request.

AIRFIELD LEASE

The industrial committee's report, which was adopted, recommended the cancellation of the lease of

LANDOWNE FIELD AS FROM AUGUST 1, AND THAT EYE BE PERMITTED TO TAKE OVER THE LEASE AND THE PRIVATE LICENSE TO OPERATE THE AIRFIELD. BY IMMEDIATE CANCELLATION OF THE LEASE, THE CITY SAVES \$110, IT WAS REPORTED BY ALDERMAN W. T. STRATH, CHAIRMAN OF THE COMMITTEE.

A contract to supply sixty-nine pairs of Arden's trousers was awarded to Turner-Repton. The total cost of the trousers is \$558.90.

FIND OLD WALL NEAR BASILICA

Discovery May Throw Fresh Light on Construction of St. Peter's

By WILLIAM H. STONEMAN (Copyright, 1931, by The New Western Service)

ROME, Italy, July 31.—A highly interesting discovery, which is expected to throw fresh light upon the construction of the Basilica of St. Peter's, has been made in the excavations of the course of the Via della Fondamenta at the back of the imposing church. This road, which begins near the arch on the left of the facade of the basilica, was discovered by the excavations before the entrance to the Vatican museums.

Some buildings on this road have been demolished, and while the road was being cleared, some solid wall running parallel with the foundations of the basilica has come to light. It has not yet been possible to determine the exact nature of the wall, but it is believed to be a wall of the basilica, and further investigation will be necessary before ascertaining the connection of these foundations with the foundations of the basilica.

"SIAMESE TWIN" FAILS TO SURVIVE

Death Comes in Spite of Apparent Gain of Strength Following Operation

BALTIMORE, Md., July 31.—Death of the second "Siamese twin" yesterday brought an end to one of Baltimore's most strange medical cases. Dorothy Foster, surviving one of the conjoined pair, died at the Mercy Hospital, where she and her sister, Mary, were born July 7 to Mrs. Albert Foster. Mary died last week. Death came to both the children when they were reported to be gaining strength for a second operation, planned by physicians to restore them to normal after their strange birth. When born, Mary and Dorothy were joined by a common intestinal tract, and the second operation had been planned to place the twins in the proper position in each. The mother was reported in excellent condition. The conjoined twins were her first children.

"Mrs. Lucas is always complaining that she has so little to wear." "Well, I saw her at a ball last night and she seemed to be wearing it."

ROVER ASKS A QUESTION

Of course, Rover had to add to our embarrassment, already at high water mark, by asking questions of his own, and we cannot help but record them, for the answers we gave, after much mental and actual agony, may be of interest to the older wielders of the willow and trundlers of the pill.

We had explained to Miss L. that though the umpire said "over," it was not over by a long sight, but rather, just about to begin again. Also, we had told her young ladyship that if a batter was not bold enough, he would get out, and, bless her, she smiled and said: "Oh, yes! I thought so!" And we had informed her, in reply to her hundred and one questions, that, like matrimony, you were caught if you made a slip, after being bold, and she said she "understood, perfectly!"

AND I REPLY

Rover asked me: "Master! What is the best cricket song?" and "Why don't we hear it after a game is over and especially at a cricket dinner?" And I said, "As far as I know, there has never been a finer cricket song than 'Forty Years On,' the old Harrow School song. The music is by John Farmer, who made the song of Harrow School famous all over the British world, when Dr. Montagu Butler was headmaster. Who wrote the very lovely and pathetic words, I don't know, but they will last as long as cricket is played, and that will be for ever."

"The reason this lovely cricket song is not more often heard is that it belongs to a period when cricket was truly the king of games, and nowadays it has been forgotten by the older men and the younger 'colts' of cricket have not become acquainted with it. As there are four verses and we are about to pull stumps for the day, we will give it to you tomorrow, and will close with a few lines of doggerel. Cricket week starts on Monday next, when there will be a series of all-day matches out at the University College playing fields, Mount Tolmie, from August 3 to August 8, inclusive."

See the Sunday Colonist for the words of "Forty Years On!"

"Willow the King is a monarch grand; Three in a row do his courtiers stand! So sang a most gallant gentleman, And you may deny it if you can! But still 'tis true and ever will be, 'Ho! The Leathery Duke and the green bairn tree! 'Bo, ho, ho, ho! May his Courtiers sing, Honor and life to Willow, the King!"

TO SKETCH LILY POND

The Sketch Club of the Island Arts and Crafts met on Monday next at Beacon Hill Park for the purpose of sketching the lily pond, which is at its best and very lovely with overhanging willows. Last Monday members were interested in sketching the charming rock garden at the Beach Hotel, with Mt. Baker in the distance.

The next story: "The Whole Town Upset."

ASSERT EQUITY IN KITSILANO

Indian Reserve Lands, Desired by Vancouver, Under Federal Control

Premier Tominie reiterated yesterday, in response to statements made by Vancouver city officials, that the Provincial Government regarded the disposition of the Kitsilano Reserve lands as a matter resting between that city and the Dominion Government. British Columbia had already expressed its views on the point, both at Ottawa and directly to representatives who sought possession of the property for the city.

Town planning operations in Vancouver, he continued, had not affected the Province's equity in the land, which it sought to acquire from the Indians years ago, and in the course of which some \$350,000 was laid out for this purpose.

The Province believed that there should be a fair return on this investment if the lands are disposed of. The present position has in no way changed the attitude of his Government, Premier Tominie concluded.

Just Roamin' Around

Only yesterday, Lilian said to Rover and also to me, "Can't I come with you two rovers to see a cricket match?"

Really, it was most embarrassing, for we know that the young person knows nothing about the game of cricket, and I, for one, know what it is to try to explain the intricacies of cricket to a novice; and, for that matter, Rover knows that I know what it means to give clear definitions of "overs," "b.b.w.s," "alps" and "good shots" to a young and unsophisticated damsel, especially when one has been asked to see every move in the great game.

WE COMPROMISE

So we compromised by offering to go en masse to Work Point Barracks, where our old cricket companions, the Victoria Cricket Club, are to battle today on the green, a pitched battle and a wicket battle, against the Wanderers C.C., who are foes worthy of their steel.

There is no ground, not even the University College grounds, that give us such a real cricket thrill as the green sward at the barracks, for it is surrounded by buildings, old and new, that remind us of a cricket field far away, in the land of cricket's birth, and we always feel very much at home there, but we do sincerely wish that more followers and admirers of the ancient game of cricket came out to the barracks to witness the "slices" that one seldom sees elsewhere.

ADVOCATES SHORTS

Following the lead of the Men's Dress Reform party in Great Britain, Mr. Goldman favors open-neck shirts and shorts for both men and women climbers. This is a radical departure from the Alpine Club's regulation outfit, which calls for knickerbockers or riding breeches. Here at the Coast particularly, Mr. Goldman thinks the habits of the regular hiker, who wears a knee-length pair of trousers, is a thing of the past.

An ardent "Hikers' Safety Club" member, Mr. Goldman is one of its best propagandists. The object of this organization is to get rid of what he characterizes as the "jazz hiker," and develop a type of hiker who has good deportment in the hills, who works for the preservation of nature's beauty, the protection of trees and shrubs, the safeguarding of waterheds and streams, the prevention of fires, and the elimination of all that tends to uglify and desecrate the mountains.

AKLAVIK STIRRED IN ANTICIPATION

Air-Minded Population of District Flooding In to Welcome Colonel Lindbergh on Arrival

AKLAVIK, N.W.T., July 31 (CP).—Not since the days of December, 1929, when the first air mail arrived here, has this settlement been so excited as it is today. The pending arrival of Colonel Charles A. Lindbergh, noted United States flyer, and Mrs. Lindbergh, on their North-pole flight to the Orient, has created a commotion right across the Arctic.

The natives are flocking in from their camps to greet the famous flyer. While traders, trappers, Indians and Eskimos are on the great trek. They will be here to

WELL-KNOWN TEACHER OF MAINLAND PASSES

ANGUS CAMPBELL, July 31 (CP).—Mrs. Molly Smith, aged twenty-nine, former teacher of Kitsilano High School, died suddenly Thursday at her home on West Thirty-Seventh Street, the wife of Henry Bertram Smith, president of the Alumni Society of the University of British Columbia and well-known teacher at Kitsilano High School.

Mrs. Smith was a graduate of arts, 1925, of the University of British Columbia. She was a member of the Officers' Club and the Players' Club of the University of British Columbia. Born in Ottawa, she had resided in Vancouver twenty years.

Besides her husband, she is survived by three sisters, Mrs. F. A. Armstrong, Miss Susan Jackson and Miss Jean Jackson, all of Vancouver.

VISITOR SEES ALPINE CAMP

Les Goldman, Vancouver Mountaineer, Delighted With Sooke Resort

The Vancouver Island section of the Alpine Club of Canada has received a very enthusiastic tribute from Les Goldman, secretary of the B.C. Mountaineering Club, Vancouver, and one of the directors of the B.C. Safety League. Mr. Goldman called at the Club's office yesterday in his return from a visit to the local Alpine Club's camp at Lake-of-the-Seven Hills, Sooke, in company with C. H. Harrison, in order to express his enthusiasm.

"Your Alpine Club has one of the finest mountaineering camps on the Pacific Coast. In the first place, it is beautifully situated, in lovely open parkland, with magnificent scenery from the summits of all the surrounding hills. The lake is a great attraction. We would consider ourselves very fortunate to be able to get possession of such a lake in any of the hills around Vancouver. Then the trail is very easy, and the easiest I have ever traveled over in British Columbia. Your club should be warmly complimented on this and on the fact of having a camp situated so near the end of a fairly good motor road, which makes it easily accessible."

Another important thing is that the camp lies in practically virgin forest land which has neither been burned over nor touched by the axe. This is a distinct contrast to conditions in certain districts on the Mainland and other points on Vancouver Island where everything has been spoiled by people going in and polluting nature. And finally," added Mr. Goldman, "in summing up my impressions of the Sooke resort, 'your Alpine Club members must have very aesthetic standards, as the trail is practically free of litter in the form of orange peel, cigarette boxes, tins and other rubbish which so often disfigures the mountain trails."

MISSED GAME

Mr. Goldman was through the same area about ten years ago, and was much struck on the occasion of his visit to the camp this week by the absence of deer and other wild life. Ten years ago there were quantities of grouse, whereas this week he saw only one. The trail is practically free of litter in the form of orange peel, cigarette boxes, tins and other rubbish which so often disfigures the mountain trails.

Vancouver has two of the strongest mountaineering organizations on the continent in the B.C. Mountaineering Club and the Vancouver section of the Alpine Club of Canada, so it is a genuine compliment to hear from Mr. Goldman that the Vancouver section of the latter organization has an exceptionally strong membership. Considered in comparison with the mountains around Vancouver, this part of the Island offers little in the way of strenuous climbing, and may more appropriately be called the hiking country. But a splendid spirit is shown, he thinks, in the building up of an outdoor interest which will take people twenty-five miles away from home to start their hiking. In Vancouver the mountaineering club, hikers are within two hours' walking from the centre of the city. Here, on the Island, it takes nearly that time to walk from the road terminus after a drive of more than twenty miles.

A FALSE ALARM

A false alarm on Thursday, caused by the engine of a canoe which sounded like an aeroplane, caused a rush from tents and cabins to careful scanning of the skies. When it was realized that it was just another arrival to join the celebration, all the inhabitants returned to their places of abode.

The exact date of Lindbergh's this morning from Ottawa,

arrival is not known, so the inhabitants have been on the alert for every airplane in case one should be carrying the celebrated flyer and his wife.

TO SWEAR IN GOVERNOR

VANCOUVER, July 30 (CP).—On his way to Victoria where he will swear in Mr. Fordham Johnson as Lieutenant-Governor of British Columbia, E. J. Lemaire, clerk of the Privy Council, arrived in Vancouver this morning from Ottawa,

WIDE TRADE OPPORTUNITIES

The United States Department of Commerce has made an unofficial estimate to the effect that under the new Canadian-Australian trade treaty some \$25,000,000 worth of Canadian goods will be exported to the Commonwealth to replace goods which are now of American origin. The probability is that this estimate is very conservative. The United States last year exported to Australia canned salmon valued at upwards of \$1,000,000; timber, \$10,000,000; motor chassis, \$15,000,000. Under the new treaty the tariff on our salmon will be one penny a pound, whereas on the American product it is fourpence. There will be no tariff on Canadian newsprint, whereas on the American product there is a tariff of one penny per pound. The new tariff on motor chassis will vary from 15 to 35 per cent. On chassis from the United States the tariff varies from 32½ to 45 per cent.

Lumber is one of the products in which Canada hopes to derive large benefits through the treaty. On redwood the tariff on the Dominion's product will be two shillings per 100 feet, as against a tariff of four shillings on the product of other countries. On staves the treaty provides for eight shillings per 100, as compared with ten shillings on those from other countries. On laths the tariff is ten shillings per 1,000, as compared with twelve shillings per 1,000 on such products from elsewhere. These preferences should have signal advantage in inducing Australian manufacturers to purchase from this Dominion.

In textiles there is good reason to hope that this country will also benefit. In 1930 our textile exports to Australia only amounted in value to about \$500,000, whereas those from the United States were \$1,000,000. Under the new preferences in this class of goods alone it is anticipated that a new volume of trade of from \$3,000,000 to \$5,000,000 will be secured. Other articles which hereafter this country should be able to export in much heavier volume to Australia are pianos, vacuum cleaners, electric apparatus, iron tubes and piping, paints, varnish, furniture and confectionery.

The main consideration in connection with the new treaty is the desirability of our producers going after the trade which offers such advantageous possibilities. They should not rely on the mere fact of the treaty being in effect, or on whatever work trade commissioners can do in drawing attention to its benefits. They should establish their own agents in Australia. Such a course of action will be well worth while. No move in recent years gives greater promise of promoting inter-empire trade than the treaty negotiated by Canada with Australia. It is an outstanding achievement of the Bennett Government. It is going to add strength and prestige to the position which this Dominion enjoys in the commercial development of the Pacific Ocean. It offers a new incentive for extended reciprocal trade relationships within the Empire. It is the first tangible outcome of the late Imperial Conference, and shows that the views put forward at that gathering by Mr. R. B. Bennett are triumphing. It remains for Canadian industry to supplement, by all means in its power, the efforts of the Government on its behalf.

THE PROBLEM OF NOISE

Some unexpected findings have been reached by the Industrial Health Board of Britain which has been investigating the effect of noise on mental and mechanical labor. It records in a report that noise tends to disturb the brain worker rather less than the manual laborer. There are, it seems, some forms of noise which act as a stimulus to mental activity, such as music which, in some cases, assists "the toiler deeply involved in vulgar fractions or in the travail of literary composition."

In the workshop, however, noise has not happy results, although, in the case of the continuous din of machines, habits discount the disturbance. Despite this it is felt that the prevention of noise would have beneficial effects. Tests have been carried out in a cotton factory. Weavers were provided with noise-deafening appliances, and as a consequence their efficiency increased when the clatter of looms could not be heard.

The effect of noise varies in individual cases, and the research board says it is impossible to domesticate as to sound and production. Taken as a whole there can be hardly any doubt that the growing noises of civilization, with its ever more loudly clattering and humming age of machinery, are having a disturbing effect on the nervous system. So much is this the case that perhaps more people than ever before even resent the sound of the human voice. That is an unhappy mental condition, but it is accentuated by those other noises which lead people to raise their voices above the sound of machinery and motor cars, so that it may be heard more distinctly. An age of machinery does not make for steady nerves.

LOCATING MINERALS

The Imperial Geophysical Experimental Survey, after spending two years in Australia testing new scientific methods of locating minerals, has issued a report. The methods examined were not those which depend on the eye but on certain physical forces, including electricity, magnetism and radioactivity. The new science is called applied geophysics. It proceeds on the knowledge that certain types of mineral deposits, even hundreds of feet underground, can exert a measurable influence on delicate instruments resting on the surface. The art is the successor to the divining rod. In Scandinavia, minerals have been detected for the past sixty years by the compass needle. It is only, however, during the last five years that most of the present-day electrical methods of locating minerals have been devised. In describing these a correspondent of The London Times

"A common procedure is to pass electrical currents into the ground and to study the paths they follow. Water can also be detected by electrical methods, and salt water can even be distinguished from fresh. This is of particular significance in the drier parts of Australia, where expensive boring often turns out to be useless owing to the salinity of the water. One of the findings of the Survey is that, in most mining fields, electrical methods are of little use at depths of more than 300 or 400 feet, and that there is not much hope of satisfactory results at the much greater depths for which success is sometimes claimed."

Another method examined by the Survey is the seismograph, which consists of measuring with a seismograph the pace at which the shocks travel through the ground. This is done by exploding a charge and recording the arrival of the shocks at various points. The sound waves vary in speed from 2,000 feet a second in sandy soil to 20,000 feet in granite. Such seismic methods have been used to locate oil, and locations have been made to a depth of 7,500 feet. It is not the actual oil that is thus located, but the salt-domes on the flanks or crown of which the oil pools are often found.

The Survey while at work found copper-nickel ores in Tasmania and a new deposit of graphite in South Australia. The finds were confirmed by borings. The new geophysical methods are supplementary to types of problems, and up to the present have been engaged in altogether for industrial purposes as private ventures. For their success the co-operation of the geologist and the mining engineer is necessary. What has been discovered shows geophysical methods possess real value. That value should be enhanced and come into more common use since the Survey alluded to was financed jointly by the Australian Government and the Empire Marketing Board, and the findings are being disseminated widely.

Russia gives the lie to the assumption that the women of the world are wholly on the side of pacifism. In fact, under the Soviet regime, women have gone to the other extreme. They have achieved equality with men in a way they have nowhere else. There are women soldiers, Celia Simpson, writing in The Women's Journal, says she saw these soldiers parading outside the Winter Palace at Leningrad at a demonstration of the Communist League of Youth. She saw flappers carrying rifles "apparently well drilled and marching stoutly." The peace of the world may yet depend on sex disarmament.

Under Britain's Labor Administration bureaucracy is on the increase. Within a year civil service strength has increased by 8,985. There are more civil servants all the time and more unemployed. It is that section of the population which includes the unemployed that has to find the means of subsistence for bureaucracy.

We complain sometimes when British newspapers fall to differentiate between Victoria and Vancouver. The fault is more venal when the offender is one of the newspapers of the Dominion. In this respect The Montreal Star, which should know better, is in error in describing Sergeant J. H. Regan as of Vancouver. The winner of the Grand Aggregate at Bilsley is a Victorian.

WHEN HOPE LIES SICK

When Hope lies sick and days are drear,
And clouds are dark and love is far,
Faith waits with cup of loving cheer,
To hasten Hope's reviving.
And Love comes with a golden bowl,
To wait and heal her sister-soul;
She steals a smile past sorrow's toll,
With winsomest contriving.
Ah, Hope look up! Arise! Partake
Of sweet ministrations;
Thou must be well for their dear sake.
Who bring these inspirations.
Faith's cup of Peace, Love's bowl of Grace,
Shall bring the smile back to thy face.
—Charles H. Hunter in "Echoes from the Hills"

RACERS

When high winds run their races in the sun,
And tall trees dip beneath their flying feet,
I mark the sinewy racers, one by one,
Sweep out across the gleaming yellow wheat:
Clean white from meadows far above blue seas,
And wind that, day-long, leaps the plain's bright grass,
The foaming silver wind from old birch trees,
And bugled wind from some high mountain pass.
Their nostrils flared, each face toward the sun,
Their hearts on glowing tumbler-eyes a-shine,
And swift as arrow wings their light feet run.
O winds from the far wild places of the sky—
I, too, am a racer, as you pass me by.
—Grace Nell Crowell, in Good Housekeeping.

Doing easily what others find difficult is talent; doing what is impossible for talent is genius.—Henri P. Amiel.

The Weather

Meteorological Office, Victoria, B.C., at 8 p.m. July 31, 1931.

SYNOPSIS
The barometer remains high on the Northern Coast and fair, warm weather continues on the Pacific Slope. Rain is falling in Southern Alberta and parts of Manitoba.

The Rhyming Optimist

By Aline M. Maclellan

ANNIVERSARIES

Each woman keeps them lavendered
In love.
The records of the days she
counts most dear—
And through her life on swiftest
Wings may move,
She pauses to review them, year
By year.

She lifts them gently in remembering
Her joyous moments still without
A stain,
Brings back as from antipodean
Lands
That she may touch them lightly
Once again.

Time's garments, now outmoded
And outgrown,
She holds them to her heart a
Little while,
Notes vanished graces that were
Once her own,
Puts on past hours with a wistful
Smile.

Time's garments, saved since some
Bright, by-gone day,
Each woman lays them tenderly
Away.

Letters to the Editor

SUNSHINE CAMP AT SASENOS

Sir,—May I ask for space in your paper to invite the citizens of Victoria to the Sunshine Camp at Saseenos, B.C., on the coast of the Pacific, where the underprivileged mothers and children are enjoying themselves there.

We have to date invested about \$10,000 on the premises. We have approximately five and a half acres of ground with 561 feet waterfrontage on a sandy beach. We have two bath houses with hot and cold water running continually; two shower baths and four lavatories. City water is on the premises. We have a large hall, a kitchen, a pantry, a storeroom for food and food supplies, two bedrooms, one for the cook and one for the camp mother, and a cooler.

We have recently erected a nursery, up to date, for mothers to take care of the infant babies, with hot and cold water (for this we use Rockgas so that they can get hot water immediately). We have four wash basins with hot and cold water running continually; two shower baths and four lavatories. City water is on the premises. We have a large hall, a kitchen, a pantry, a storeroom for food and food supplies, two bedrooms, one for the cook and one for the camp mother, and a cooler.

The location is one of the finest from a scenic point of view that could be found anywhere on the coast. It is just about half a mile from the main Sooke Road and is private, so children can run at large and enjoy themselves. The cottages are donated by St. Margaret's School for Girls, Army and Navy Veterans, Camosun Chapter, I.O.E., Junior Catholic Women's League, and one cottage, known as "The Wanderer," was donated by Lieutenant-Governor R. R. Bruce. Last, but not least, the nursery was built by the "City of Saseenos" and the "Saseenos" camp in general have been erected by the citizens of Victoria. I doubt whether there is a home for underprivileged mothers and children has been provided for in any other city of the Pacific Northwest. Every cent invested has been subscribed by the citizens of Victoria through the efforts of the Social Service League.

I am satisfied in my own mind that if the people of Victoria would give the children that they own the property, and that everyone would be made welcome by the camp mother and playground instructor, the children would be made happier by seeing the smiling faces of the mothers and children who otherwise would not be so happy. The camp was organized at Cordova Bay in 1925 with twenty-seven mothers and children. In 1926 we had 30, in 1927 we had 40, in 1928 we had eighty-two. The present camp was opened in 1929 and we were able to take care of 220 mothers and children. Last year we had 263, and this year we have had up to date 199, with a waiting list of 165 still to be taken care of. It will be a great help to the mothers and children to have a place where they can get proper food, plenty of milk, green vegetables, good eggs, etc. Up to date we have received approximately \$1,100, and need \$1,000 to enable us to carry on the good work, otherwise we shall be forced to close up the camp before the usual date because of lack of funds.

I feel that when the citizens of Victoria know the real facts of the case they will come forward with contributions and enable us to continue our work.

F. LANDSBERG,
Chairman Finance Committee,
Social Service Sunshine Camp,
737 Fort Street, Victoria, B.C., July 29, 1931.

RETURNED SOLDIERS' PENSION

Sir,—Re your editorial of this date under the heading of "Returned Men's Pensions."

I would like to point out that my letter which you seemed unsuitable to publish, but which The Victoria Daily Times considered fair and honest criticism, dealt not with the question of reversal by the Pension Commissioners entirely, but asking that the tribunal take into consideration the full facts of the cases (fracture, medical and service standpoint).

When it is plainly shown by medical records, X-ray examination reports, and by the very fact that men have been evacuated from the front line owing to a broken-down condition of health and considered unfit for further service, but who were never in any war area, and who were considered to have developed disabilities through war service, then surely it can be right to play the game and carry on to the end, I distinctly say, any finding by the tribunal, and not to take these facts into consideration is not a fair decision or just to the man concerned.

Various degree pensions have been granted over many years to those who were never in any war area, and who were considered to have developed disabilities through war service, then surely it can be right to play the game and carry on to the end, I distinctly say, any finding by the tribunal, and not to take these facts into consideration is not a fair decision or just to the man concerned.

MARKET BUREAU STARTS TODAY

Shippers' Council Takes Over Federation Charter in Okanagan Area

Inaugurated recently by the Provincial Government at the request of Okanagan fruitmen, the new Vernon Market Intelligence Bureau opens its doors today, with J. A. Grant, an official of the Markets Branch, Department of Agriculture, in charge.

G. F. Badnall, formerly statistician of the Vernon Hospital Board, will assist Mr. Grant in the office located in the Vernon Courthouse. Mr. Badnall has twenty-five years' residence in the Valley to his credit, and served for four years overseas in the Canadian Expeditionary Forces.

The first returns from the growers and shippers will be received today by the new bureau, and will be published the same day, Wallace Duncan, director of markets for the Province, stated on his return yesterday. He was in the Okanagan and growing circles are co-operating in the venture. The cost of the bureau will be borne for the balance of this year by the Provincial Government.

Advices from Vernon concurrently stated the new Shippers' Council met there this week and adopted its by-laws, taking over the charter of the former Growers' and Shippers' Federation. The Shippers' Council is representative of the Okanagan Valley, it explained, and its purpose is to co-operate in the work to be done by the Markets Bureau.

TELLS OF WORK OF INSTITUTION

J. N. Stephen Gives Interesting Address to Civil Servants on Barnardo Homes' Activities

Through sixty odd years of its work among neglected children, the Barnardo Homes have never turned away a single child, J. N. Stephen, organizing secretary for the movement, told a representative group of civil servants assembled in the Provincial Library yesterday morning. Mr. Stephen spoke instructively of the work of the "Canadian Cent Fund," through the medium of which the movement has been encouraged in this country. E. W. McMullen is treasurer for the Vancouver Island area.

At the close of an effective address, Mr. Stephen was thanked for the able manner in which he laid the subject before the meeting, presided over by Hon. Joshua Hinchey, Minister of Education. The Civil Servants formed a committee to go into the subject more fully, appointing Miss T. Taylor and Miss A. M. Russell on this connection. More than 40,000 boys had been placed in Canada under the Barnardo plan, said Mr. Stephen. Before coming to this country they are given an all-round training, with vocational guidance along more than one line. If their chief aim is beyond reach, these boys always have a second trade to fall back upon, and many have risen to high places in past years.

Mr. Stephen cited the instance of a successful fuel merchant on the mainland, who gratefully acknowledged his start in this way, and told also of four members of the Royal Canadian Navy making good in their careers after a station on this coast.

Barnardo Homes are now caring for more than 18,000 children a year, on slender budget, the bulk of which goes directly to train and place these charges after they have been shepherded through their junior years.

That they would maintain a policy of extension, particularly on the Pacific Coast during the ensuing year, was the pledge taken by the new officers installed at the annual international convention of the Association of Gyro Clubs, which took place at Hamilton, Ontario, from July 6 to 10, inclusive. Word to this effect was received from William C. Hudson, president of the Victoria Gyro Club, who returned to the city yesterday after attending the convention.

Robert Abel of Tacoma, and H. E. Smith, of Milwaukee, were elected president and vice-president, respectively.

A GREAT SUCCESS
"The convention was a great success," asserted Mr. Hudson, "and did a great deal to promote international relations." The feature of the five-day gathering, he continued, was the dedication of the Home for the Blind, given by the Hamilton Gyro Club. The home was turned over to the Canadian Institute for the Blind following the ceremonies.

Another feature was the dinner held in Hart House, Ont., when the visitors were the guests of the Toronto Gyro Club. It is seldom that this building is used by any other organization than the students' body of the Toronto University, and the Gyros considered it a great privilege to have its use. The Gyros were addressed at the dinner by the Acting-Premier of Ontario and the regent of the Hon. R. B. Bennett, Prime Minister of Canada, at being unable to be present, were read. The Gyros also enjoyed a visit to Niagara Falls, Mr. Hudson said.

MAY COME TO VICTORIA
The possibility that the convention may be held in Victoria in 1937 or 1938 was stated by the president, who intimated he had asked that it be held here in 1936, but this year had previously been spoken for. He had been assured, however, that it might be possible a year or two later.

At the conclusion of the convention, Mr. Hudson, who was accompanied by Mrs. Hudson, traveled to

Secret Diplomacy Coming to Climax In Central Europe

French Said to Be Making Quiet Preparations in Case of Serious Trouble to Germany—Two General Ends

(Copyright, 1931, by The Chicago Daily News Foreign Service)
VIENNA, July 31.—A period of intense diplomatic activity, mostly secret, is reaching some sort of climax in Central Europe and the Balkans these days. French policy is quietly busy seeking to make the region from Prague to Angora "safe" in case of eventual serious trouble visiting Germany. If Germany should collapse, with untold catastrophic consequences to the Western World, it would be of the utmost importance for France to keep the rest of Central Europe in the French camp.

France is working for two general ends, first to strengthen the French allies, Jugoslavia, Rumania and Czechoslovakia; and second, to wean states like Austria and Hungary away from Germany to France and, falling in this, to embarrass, weaken or crush them.

Help to the French satellite states has been largely financial. Czechoslovakia has stood the brunt of German financial pressure, but only, it is said, because French funds were put at the disposal of at least two big Czech banks which are suffering.

FRENCH ARE WORRIED
The French are very worried over the situation in Rumania. The new power behind the scenes there is Constantine Argetoianu, Minister of Finance, who is, or was, also president of Rumanian affiliate of the great German Dresdner Bank, and who is thought to be more German than French in sympathy.

The appointment of King Carol's close friend, Mihail Manolescu, to the presidency of the Rumanian National Bank is said to have been inspired by the French as an effort to Argetoianu's influence. Mr. Manolescu is more or less on the French side.

French policy is anxious to tranquillize Jugoslavia. The dissident Croats might revolt against King Alexander's reign in case of a general upset, so French advisers have persuaded the King to several significant ameliorations of the Croat problem.

For instance, it was recently announced that King Alexander will celebrate the tenth anniversary of his accession to the throne, August 16, in Zagreb, Croat capital, not in Belgrade. This is a sensational step, calculated to appease and satisfy the Croats.

On the other side, French efforts to seduce or weaken Austria and Hungary are hovering in the balance. Austria seems at the moment safe from further critical financial trouble, but the recent British loan of \$20,000,000 will not last forever, and meantime the French continue to withhold the \$40,000,000 due Austria.

"CORN"
LIFT RIGHT OUT
NO PAIN
Removing corns with "Putnam's" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer. Use Putnam's Corn Extractor, the one sure relief for corns. Sold at every drug store, 35c.

PUTNAM'S CORN EXTRACTOR is painless—safe—efficient.

What could get a man from his bed quicker than the sun pouring in through the window? The rain pouring in through the roof.

TO INVESTIGATE RISE
WASHINGTON, July 30 (AP).—Indications were given in the anti-trust division of the Justice Department today that an investigation would be made of the recent simultaneous rise in prices of the popular brands of cigarettes.

Overlooking the unhealthy pile of junk is the real danger to the tenement dwellers. The junk is carted into the place through a garbage leading onto Cormorant Street. The huge pile, weighing many tons, is located directly over one of the main sewers and besides being unhealthy the conditions are such that firemen would have the greatest difficulty in gaining access to the rear of the stores should a fire occur there.

The council has instructed the city solicitor, the city engineer and the building inspector to report on the condition of the property and to ascertain the parties responsible.

Responsibility for the accumulation of rubbish and old iron, tons of it, at the rear of buildings facing Government, Johnson, Store and Cormorant Streets, will be fixed by city officials and the owners of the junk piles will be forced to clean up. It was agreed in council yesterday afternoon when Alderman James Adam registered a complaint concerning the conditions of the "junk block" in the heart of the business section.

INFESTED WITH RATS
Following the council session, Alderman Adam and Alderman T. W. Hawking visited the spot and discovered a pile of twisted iron, parts of autos, old boilers six feet high, ten feet wide at the base, and about seventy-five feet in length. The place is infested with rats and strays cats abound in plenty.

DANGER OF FIRE
Overlooking the unhealthy pile of junk is the real danger to the tenement dwellers. The junk is carted into the place through a garbage leading onto Cormorant Street. The huge pile, weighing many tons, is located directly over one of the main sewers and besides being unhealthy the conditions are such that firemen would have the greatest difficulty in gaining access to the rear of the stores should a fire occur there.

H.M.S. Dragon Band Will Give Air Programme

ARRANGEMENTS have been made for the broadcasting of a musical programme from the deck of H.M.S. Dragon, now in port in Vancouver, tonight between 7.30 and 8.30 o'clock.

This programme will be broadcast over C.N.R., Vancouver, and is being given by permission of the commanding officer of the cruiser, Capt. E. J. Spooner, D.S.O. The band will be under the direction of Lieut.-Commander O. C. Brown.

Pioneer Transfer Business Man of Victoria Passes

John Henry Yeo, aged sixty-nine years and nine months, passed away in Victoria yesterday at the family residence, 917 Green Street, after a short illness.

Mr. Yeo was born in Cornwall, England, and came to Canada when he was nine years of age. The early part of his life in the Dominion was spent in Eastern Canada and on the Prairies, after which he came to Victoria, about forty years ago.

Since his arrival here, Mr. Yeo had built up an extensive transfer business and was widely associated in the city. He was also an active member of the Metropolitan United Church.

Mr. Yeo is survived by his widow, at the family residence, one daughter, Mrs. W. D. Todd, 2659 Roseberry Avenue, two sons, Stanley of Vancouver and Ernest of Vernon, Oregon; three granddaughters, one grandson, and three brothers, Samson, Jesse and George Yeo, of Oshawa, Ont.

The remains are reposing at the S. J. Curry & Son Funeral Home, pending funeral arrangements.

JULY SUNSHINE ABOVE AVERAGE

Victorians Saw the Sun for 387 Hours—Temperature for Month Up

Old Sol cast his rays on Victoria for 386 hours and 30 minutes, for an average daily sunshine of about twelve hours during the month of July, according to official statistics released last night by F. Napier Denison, director of the Dominion Meteorological Observatory, Ottawa.

The amount of sunshine was twenty-three hours above average, Mr. Denison stated.

In keeping with the excess sunshine was the mean temperature for the month, which was 62 degrees, two degrees above the average.

The mercury reached its highest for the month on July 8, when it registered 86 degrees, and recorded the lowest on July 27, when it dropped to 47 degrees.

Only 33 of an inch of rain fell during July, and this was 0.6 of an inch below the average for the month. The total precipitation for the seven months, January to July, was 17.33 inches, which was 4.73 inches in excess of the normal precipitation for that period.

Continued fine and warm weather is predicted, with the forest fire menace remaining serious.

JUNK PILES IN BUSINESS AREA

Council Instructs Officials to Find Parties Responsible for Allowing Accumulation of Rubbish

Responsibility for the accumulation of rubbish and old iron, tons of it, at the rear of buildings facing Government, Johnson, Store and Cormorant Streets, will be fixed by city officials and the owners of the junk piles will be forced to clean up. It was agreed in council yesterday afternoon when Alderman James Adam registered a complaint concerning the conditions of the "junk block" in the heart of the business section.

Following the council session, Alderman Adam and Alderman T. W. Hawking visited the spot and discovered a pile of twisted iron, parts of autos, old boilers six feet high, ten feet wide at the base, and about seventy-five feet in length. The place is infested with rats and strays cats abound in plenty.

DANGER OF FIRE
Overlooking the unhealthy pile of junk is the real danger to the tenement dwellers. The junk is carted into the place through a garbage leading onto Cormorant Street. The huge pile, weighing many tons, is located directly over one of the main sewers and besides being unhealthy the conditions are such that firemen would have the greatest difficulty in gaining access to the rear of the stores should a fire occur there.

The council has instructed the city solicitor, the city engineer and the building inspector to report on the condition of the property and to ascertain the parties responsible.

Chilean Revolution Draws Attention to Power of Students

Practically All South American Changes of Government Inspired by Younger Men—Fall of Argentine Leader Is Foreseen

(Copyright, 1931, by The South American Newspaper Alliance, Inc.)
MONTEVIDEO, Uruguay, July 31.—The Chilean revolution has again brought to public attention the force and determination of the great, irresistible student movement that is sweeping over the entire South American continent and which has been the most significant feature of all recent revolutions, with the exception of Brazil, which was more of a political nature.

Bolivia's revolution was the outcome of two years of conflict between President Dr. Hernando Siles and students, the army declaring the revolution when Dr. Siles began shooting down students demonstrating in front of the presidential palace.

The overthrow of Gen. Carlos Ibáñez Del Campo in Chile is a direct result of student opposition, which was organized for revolutionary ends immediately after the success of the Bolivian revolution.

Striking students brought the Peruvian crisis to a head, and the Argentine revolution against President Hipólito Yrigoyen, like that against Dr. Siles, grew out of the killing by troops of two students among a crowd demonstrating in front of Government House.

Students are now harassing Gen. José Francisco Uriburu and the Argentine jails are filled with students he has arrested.

The question naturally arises: What is the significance of this movement? Is it only coincidence that students have so prominently a part in overthrowing tyrannical governments, or is there some continental association among Latin-American students?

That question is answered by Dr. Alfredo Palacios, who is a sort of idol of the Argentine students, will Palacios has just been released from the penitentiary at Buenos Aires, where he was under arrest for several days for openly expressing opposition to General Uriburu at the recent gathering of professors at the University of La Plata. His imprisonment threatened to bring student opposition to the point of active violence, so he was released.

HAS WIDE EXPERIENCE
Dr. Palacios has lectured on international law and social questions in virtually every university in Spanish-speaking America and has his finger on the pulse of the student movement as has perhaps no other man. The students of the continent, he says, have begun a spiritual revolution, and are in favor of liberty against the tyranny of dictatorship and in favor of the masses against conservative oligarchy.

He predicts the student movement will overthrow Dr. Siles and General Ibáñez.

Dr. Palacios points out that while in Europe people follow the leadership of mature and experienced men, in Latin-America it is youth which establishes public opinion and indicates the routes to be followed.

In Argentina, for example, the students are the only sector of public opinion which has dared to resist the seven years of shameful tyranny of General Uriburu just as they overthrew Dr. Siles and General Ibáñez.

APPOINTMENTS ARE ANNOUNCED

Two Victorians Named to Positions in Provincial Educational System

Several changes in the inspectional staff of the Department of Education, some affecting Victoria personnel, were announced last evening by Hon. Joshua Hinchliffe, Minister of Education.

John Gough, M.A., a member of the Victoria High School, has been offered the post of instructor in art and manual training at the Victoria Normal School. Miss Hinton, of this city, has been appointed physical instructor and music teacher at the Victoria Normal School. Miss Courrier has been appointed instructor at the Vancouver Normal School.

Ray McLeod, B.A. principal of the North Vancouver School for some time, and son of Reeve McLeod of Chilliwack, has been appointed as the first full-time inspector for the Peace River District. Mr. McLeod served overseas in the Great War, and was severely wounded. He will take over the inspectorship of the Peace area, which last year was conducted by Inspector T. W. Hall, who also had charge of the Cariboo area. This year arrangements are being made for Mr. McLeod by combining it with other districts, the minister stated.

Consequent upon the changes, H. C. Fraser, Prince Rupert, will move to Victoria in the inspectorial forces.

SOUTH AFRICAN VETERAN PASSES

Ernest B. Halsall, Resident of City for Thirty Years, Dies at Home Here

Ernest Bell Halsall, veteran of the South African War and a prominent member of the British Campaigners' Association in Victoria, passed away on Thursday evening at his home, 468 Beach Drive.

Born in Liverpool, England, Mr. Halsall was a resident of Victoria for thirty years. He served in the South African campaign in 1900, and came to Canada and to Victoria shortly after the close of hostilities.

He was employed on the staff of the Victoria Machinery Depot, and was also one of the liquidators of the Equilmalt Waterworks Company.

Mr. Halsall is survived by his widow and one stepdaughter, Dorothy, living at home, and one sister residing in England.

The remains are reposing at Haywards' B.C. Funeral Chapel, from where the funeral will take place on Monday morning at 10:45 o'clock and proceed to St. Mary's Church, where service will be conducted at 11 o'clock by Rev. C. H. E. Cropper. Burial will be in Royal Oak Burial Park.

PROSECUTION IS NOT LIKELY NOW
Promoters of Vancouver Walkabouts Come to Agreement With City Authorities

VANCOUVER, July 31 (CP).—Prosecution against promoters and contestants in the Auditorium walkabout under the Lord's Day Act, became a remote possibility today when promoters and city officials reported patching up a truce which will bring the contest to a close at 11:45 p.m. tomorrow.

Wear Orr, city prosecutor, said Friday that he had considered insisting summonses under the Lord's Day Act next week. The flat authority of the prosecution was received from Attorney-General R. H. Pooley Friday. In view of the fact that the promoters had promised to end the contest, however, Mr. Orr believed there would be no prosecution.

Seven couples were left in the contest late tonight, four couples having weakened since Thursday under the strain of the continuous shuffling without rest periods.

Capone Allowed To Withdraw Plea

CHICAGO, July 31 (AP).—"Scarface" Al Capone was granted leave to withdraw his plea of guilty to indictments for violation of the income tax laws in an unexpected morning court session today.

Federal Judge James H. Wilkeson set the case for trial September 8, and announced he would reserve decision until that date on the gangster's motion to withdraw his guilty plea on the indictment for conspiring against the prohibition law.

The Colanist in London
The Colanist may be procured at the International News Stand of Messrs. Selfridge & Co., Oxford Street.

WILL GET FACTS REGARDING PLANE LANDING PLACES
The aviation committee of the Chamber of Commerce will make inquiries regarding landing places in this city for planes. This was decided at the meeting of the directors yesterday in view of reports concerning the use of the Inner Harbor by seaplanes.

The City Council has endorsed the application for a seaplane base in the harbor. It was announced, R. H. B. Ker referred to two services landing the harbor for landing now, and he had been unofficially informed that Mr. Lowe was prepared to go ahead with his proposals if given permission.

Information was also conveyed to the meeting that the lease of the Lansdowne field would be dropped, and also that other interests were prepared to take up the lease. The aviation committee will get the information with respect to the situation and report.

ALL DOMINIONS ARE IN ACCORD

Recommendations of Conference Regarding Statute of Westminster Approved

LONDON, July 31 (CP).—The recommendations of the Imperial Conference of 1930 regarding the statute of Westminster have been approved by all the Dominions, Rt. Hon. J. H. Thomas, Secretary of State for the Dominions, said in the House of Commons today.

The proposed statute was framed to eliminate from the constitutional law of the Dominions, features considered anomalous in view of their present self-governing status.

ARMADA OF AIR IS AT SASKATOON
Siskin Flight Arrives With Military Precision at Prairie Airport—Greeted by Thousands

SASKATOON, July 31 (CP).—Flying in out of a sunlit sky the famous Siskin flight, in perfect formation, with military precision, arrived at about 5:45 p.m. here to take part in the great air pageant that will be staged on Saturday afternoon.

All other machines in the armada, fifteen in number, arrived within twenty minutes of each other, and were greeted by a crowd of approximately two thousand, which awaited their arrival from North Battleford.

As the famous Canadian Air Force flyers dipped their sleek machines to the salute over the airport the crowd rose up to welcome them. Then stepped the air and then stepped the air and then stepped the air.

Hostess at Shower
Mrs. W. E. Skett, 1722 Lee Avenue, was hostess at a delightful shower in honor of Miss Mary Ard, a popular August bride-elect. The reception room was artistically decorated in pale primrose, gladioli and Shasta daisies. Centering the table was a large bell with an archway of pale primrose and white streamers, under which stood a set of Cupid figures representing the bride and groom, two bridesmaids and minister. The bride-elect entered the room to the strains of a wedding march, played by Mrs. E. Holt. The gifts were presented to her in a decorated wagon, drawn by little Naida Blackmore, as bride, and Gilbert Oliver, as bridesmaid. They presented the bride-elect with a lovely bouquet of flowers. The bride-elect presented "O Promise Me" and "The Gypsy's Love Song," accompanied by Mrs. E. Holt, who also sang "The West is a West and You." A competition, "The Wedding of the Flowers," was won by Miss Evelyn Johns. Refreshments were served by the hostess, assisted by Mrs. Thompson and Misses Marjorie McMillan and Mary Thompson. Those present were: Miss Mary Ard, Mrs. Ard, Mrs. Langford, Mrs. Frisch, Mrs. Cooper, Mrs. Blackmore, Mrs. Watson, Mrs. Walker, Mrs. Johnson, Mrs. Manson, Mrs. Brown, Mrs. Ripley, Mrs. Lindsey, Mrs. Baron, Mrs. Heady, Mrs. Hawley, Mrs. Kendall, Mrs. Thompson, Mrs. Holt, Mrs. Goss, Mrs. Gough, Mrs. Hunter, Mrs. Williams, Mrs. Smith, Mrs.

Blind Millionaire Weds

THIS colorful scene was enacted when A. J. Wright, millionaire, who was stricken blind several years ago, and Tatiana Moslova, a former subject of the Czar of Russia, were married in London with all the pomp and circumstance of the Russian Church. The ceremony took place by special permission of the Archbishop of Canterbury, and the couple were attended by the Earl of Albemarle as best man, and Princess Marie Helen of Russia as matron of honor.

**St. Saviour's
Scene of Pretty
Wedding**

In the presence of a large congregation, the wedding of Mary Irene, only daughter of Mr. and Mrs. Owen B. G. Silk, of Victoria, and Mr. Harold Edwards, of Wallace, England, and of the late Mrs. Edwards, was solemnized last night at 7 o'clock in St. Saviour's Church. Rev. F. L. Stephenson performed the service, and the organist, Mr. Hughes, played the wedding march. Gladioli and dahlias and other seasonal flowers were used profusely in the decoration of the church.

ONE BRIDESMAID
The only bridesmaid was Miss Vera Gallop in a frock of lemon colored georgette over a slip of apricot silk, made on similar lines to that of the bride, and a picture hat to match, which had a band of French flowers. She held a sheaf of gladioli.

RECEPTION AND DANCE
A large reception and dance followed at the home of Mrs. G. H. B. Hooker, where about three hundred guests were welcomed by Mr. and Mrs. Silk, the latter in a navy blue flowered silk crepe costume and a blue and white hat. The hall had been massed with flowers for the occasion, and the buffet supper was served from a table centered with a three-tier bride cake and sweet peas, and lighted by four pink candles in silver holders.

Afternoon Tea Hostess
Mrs. Allan Fraser, Uplands, was hostess at a delightfully arranged tea party yesterday afternoon.

Staying at Spruce Lake
Mr. and Mrs. R. V. D. Guthrie, Patio Court, Oak Bay, have left the city for a short stay at Spruce Lake.

Clubs and Societies

Malahat Conservative Club
Under the auspices of the Malahat Ladies' Conservative Club a picnic was held on Thursday afternoon on the beach at Mill Bay. Boating and swimming were enjoyed by the young people and tea and ice cream were served by the ladies of the club. About fifty children were present with their parents.

Lodge Primrose
Daughters of England, Lodge Primrose, No. 32, held its annual picnic recently at the Willows Park, when a large number of members and families enjoyed a varied programme, which provided good contests for sisters and children. Worthy Sister Stephenson was presented with a beautiful bouquet, and Sister Heady's committee and Mr. Stephenson, who gave valuable assistance, were given a hearty vote of thanks.

C.G.I.T. VISITORS' DAY
Today the C.G.I.T. Girls' Camp at "Maple Lawn," Sooke, will hold open house for their friends. Incoming visitors have been advised that they may arrange transportation through the Y.W.C.A. this morning.

PRESENT AT PARTY
Among the guests present at the shower given by Mrs. W. A. Evans and Mrs. Mason at the home of the former, on Fairfield Road, this week were Baby Kinsey and Master Evans.

WEDDINGS
HINDMARSH-MUIR

Colquitz
Mr. Lloyd Jakeman, of Port Fraser, who is holidaying with his parents, Mr. and Mrs. V. H. Jakeman, Carey Road, was the guest of honor at a delightful party held at their home on Wednesday evening, when games and dancing were enjoyed. The invited guests included Miss Eva Holman and Miss Jean Drafon, of Aberdeen, Sask.; Lucille Cross, Minnie Youell, Alice Oak, Mr. and Mrs. Youell, Mr. and Mrs. F. Hamilton, Mrs. Nelson, Mr. and Mrs. Jakeman, Messrs. Harold and George Cross, Howard and Albert Jakeman, George Nelson, Tommy Youell, Eld Driver, Bill Byers, Eddie Short, Joe Crawford, Jerry Shepherd and William Sullivan.

Nanaimo
In honor of Mr. Phil Port's birthday, a number of friends gathered at his home on Pine Street Thursday evening, when Mr. Port was taken quite by surprise. The evening was spent in games and cards, the winners in the five hundred contest being Mrs. W. Old, Mr. Dent, Mrs. J. Rogers, Mr. J. Rogers, Mrs. Craig and Miss G. Dent.

Royal Oak
The Misses Eva and Bertha Phillips, of Royal Oak, left on Friday to spend the week-end at Qualicum Beach.

Marigold
Mrs. Stewart and daughter, of Cassidy, B.C., were visitors at the home of Mr. and Mrs. H. James, Jasmine Avenue.

Cobble Hill
Colonel and Mrs. Slater have returned to Victoria after spending a week with Mr. and Mrs. Edwin Jackson, Mill Bay.

ITZEHOE, Germany, July 30 (AP).—One man was dead and twenty-five were wounded today as the result of a clash between Communists and Hitlerites during a National Socialist meeting near here last night.

Marigold

**Hymns and Sobs
Worry Court at
McGovern Trial**

GLASGOW, July 31 (AP).—John McGovern, suspended from the House of Commons during an almost unprecedented disorder, went on trial today with a number of lay preachers charged with violating the laws which forbid preaching without a licence on the Glasgow Green.

Hymns were sung by the court crowd and there were spirited passages between the court and defendants. At one point the noise reached such a pitch that the magistrate ordered the court cleared. There was much sobbing by the women as they were removed.

WRIGHT AND PEARCE REACH SCULLS FINAL

Famous Oarsmen to Meet for Canadian Championship Today

Present Holder of Diamond Sculls and Former Titleholder Will Be Opponents for Dominion Crown—Both Easy Heat Victors

REGATTA COURSE, ST. CATHARINES, Ont., July 31 (CP).—The Royal Canadian Henley regatta, its climax tomorrow, results in the programme of the second day insured international battles in all the historic events as the forty-ninth annual regatta of the Canadian Association of Amateur Oarsmen concludes; and main interest will centre in what looks to be the sculling classic of the year, a meeting between Bobby Pearce, British Empire and Olympic champion, holder of the famous Diamond Sculls; Joe Wright, Jr., of Toronto, who won the Diamond Sculls in 1928, and is now at the top of his form, and a challenger from the United States, Ken Myers, of Philadelphia.

PEARCE EASY WINNER

Pearce, the stalwart Australian who now makes Hamilton his home, came through today with a fine victory over the United States national singles champion, Billy Miller, of the Bachelor Barge Club, Philadelphia. In the 14-bit of a great afternoon's sport. In the second heat of the championship singles his margin of victory over Miller was three lengths. Pearce did not seem to be extended.

In the other heat Wright won a great race to finish comfortably ahead of Ken Myers, with R. W. Richards, of Winnipeg, well back of the two qualifiers.

Lachine Club's eight from Quebec proved best in the row of the 140-pound eighth final. They finished five feet ahead of Detroit. Lachine

scored a second victory in the consolation singles final, when C. L. Stark won with ease. The third final of the day, the junior eight proper, was captured by Buffalo Westsides.

New Lawn Bowling Headquarters to Be Opened Today

The new headquarters of the C.P.R. Lawn Bowling Club, in rear of the Crystal Garden, will be officially opened by Captain Neudor, manager of the B.C. Coast Service, this afternoon at 2:30 o'clock. Mayor Herbert Anscomb will also attend, and a large gathering of bowlers is expected to be present.

Veteran Race Horse Timer Drops Dead

REGINA, July 31 (CP).—John Shields, sixty-seven, will clock no more race horses in the pink glow of the prairie dawn. The old race horse attendant, who came from Portage La Prairie, Man., to travel the Western exhibition circuit, died with his timing watch in his hand. "What's the time?" a friend asked him as a group of track followers rolled out of bed in a fair ground tent and started to prepare breakfast. "Six—twenty-five," snapped back Shields, and toppled over with a fatal heart seizure. He had clocked his own finish.

REUTHER JOINS PORTLAND CLUB

Veteran Southpaw Hurler Gets Berth With Beavers After Seattle Release

PORTLAND, July 31.—"Dutch" Reuther, southpaw hurler, released a few days ago by the Seattle Indians, is now on the Portland payroll. Thomas L. Turner, president of the Beavers, made the announcement today. Reuther pitched for Portland many years ago.

ELLSWORTH VINES WINS INVITATION NET TOURNAMENT

SEABRIGHT, N.J., July 31 (AP).—Ellsworth Vines, Jr., nineteen-year-old Pasadena youngster, scored his second victory of the season over John Hope Doss, of Newark, National champion, in the final round of the fourth annual Seabright invitation tennis tournament today. The scores were 10-12, 6-8, 6-3, 8-6, 6-1.

The women's doubles title was carried off by Josephine Crickshank, of Santa Ana, Cal., and Mrs. John Van Ryn of Philadelphia, who won by a score of 9-7, 0-6 and 6-4 over Barbara Level of Rye, N.Y., and Mrs. Laurence A. Harper, of Oakland, Cal.

CANADIAN MATMAN PINS SONNENBERG

BOSTON, July 31.—Henry Deglane, 218, French-Canadian claimant of the heavyweight wrestling title, won the first and third falls from Gus Sonnenberg, 205, of Boston, at Travers Field last night. Goalie Gus squared the match by winning the second fall with a flying tackle in 10:30. Deglane took the first by intercepting a butt in 20:20, and gained the decisive blow with a flying tackle in 10:40.

JOE STECHER WINS FROM CANTONWINE

VANCOUVER, July 31.—Joe Stecher, ex-world's heavyweight wrestling champion, snipped off Howard Cantonwine, Iowan cornstalker, in the fifth round of his scheduled eight-round match last night. Stecher won the match by submitting Cantonwine with those terrible scissor holds of his, and that was about all there was to the main event on Emil Klank's weekly wrestling card.

"Nothing is ever totally lost or destroyed," said a professor of physics. "In that case," asked a facetious student, "how do you explain the fact that everybody loses umbrellas when it never meets anybody who has found one?"

It's Only Boloney, But—

By Tim Matson
Drawn by Cynthia Clayton

GOV'T WILL DEMAND FULL REORGANIZATION

Continued from Page 1

FOUR POSSIBILITIES

In respect to the management of the great development, the Prime Minister intimated four possibilities existed.

1. The present management might be able to secure financial backing to enable it to continue.

2. The property could be taken over by the Province of Quebec.

3. The Dominion might take over the project and operate it as a public utility.

4. The company might be re-organized completely, under new conditions proposed by Act of Parliament, so as to insure the continued progress of the work of the enterprise.

EXPLAINS ALTERNATIVES

Mr. Bennett dealt briefly with the alternatives. In the first instance he did not believe that the present company could secure the financial backing which would enable it to continue. Secondly, he did not think that the Province of Quebec would take over the enterprise.

Thirdly, if the Dominion attempted to assume the responsibility of the project, he was satisfied that legal difficulties would arise which would mean its stoppage.

The Dominion could not possibly take over the work without the acquiescence of the Province of Quebec. He did not think that Quebec had any desire for the Dominion to operate a hydro-electric plant in that province, and he was not sure that the Province of Quebec would be prepared to assume the management of such a step.

NEW MANAGEMENT PLAN This left reorganization of the company as the remaining alternative. While Mr. Bennett did not state definitely that this was the plan favored by the Government, he gave some slight indication of how he thought the new management would be created.

Prime Minister has not yet made it clear in what form the new management will be, but he said that it would be a new company, and that it would be a public utility.

Mr. Bennett said that he was not going to make any statement as to whether or not the new management would be a public utility, but he said that it would be a new company, and that it would be a public utility.

There was the story, said Mr. Bennett, that the Prime Minister had said that he was not going to make any statement as to whether or not the new management would be a public utility, but he said that it would be a new company, and that it would be a public utility.

The committee had found that the whole work of construction was proceeding according to plans which had not been approved by the Governor-in-council nor the Minister of Public Works. Worse than that, the Prime Minister declared, the Beauharnois committee had not filed any plans at all until fifteen days after the present Government came into power. The order-in-council under which the project was being carried on set forth that work should not be proceeded with until plans of construction had been submitted to and approved by the Minister of Public Works. The company had failed to comply with this provision.

COULD TAKE CHANCES

"The Government of the country was defied," warmly declared Mr. Bennett. "These people got their order in council; they were diverting the River St. Lawrence; they breached the Hungry Bay dike, which they had no right to do. They went on just as they pleased; they were so sure that the Government would be returned that they thought they could afford to take almost any chance in the world."

"Why did they do so?" he questioned. "Any judge addressing a jury would say: 'It is for you gentlemen to say who is right. Well, there were 700,000 reasons worth each 100 cents on the dollar.'"

SET UP SMOKE-SCREEN

Condemnation of parts of the speech made last night by Rt. Hon. Mackenzie King, Opposition leader, was uttered by the Prime Minister. Personal attacks had been made upon him by Mr. King, said Mr. Bennett. King had complained of "insinuations and innuendoes" in the report. What Mr. King had really tried to do was to set up a "smoke-screen" to get the minds of the Canadian people diverted from the report. The personal references had been "made to induce the Canadian people to forget that there had been an investigation."

The Prime Minister dealt with the remarks of the Opposition leader on campaign funds. He visualized a conversation between Mr. King and Senator Haydon, in which the former complained that the latter could not inform the Canadian people of "the beauties of the Dunsmuir budget" because they had no money. Senator Haydon had thereupon gone out to get the money. He had procured it from Beauharnois. How had Mr. King expected that had been retained to be obtained by Senator Haydon?

NO COMMISSION

The Government would not provide a royal commission to investigate campaign funds, as suggested by the Opposition leader, but he declared earnestly, if any member cared, at any time, to stand in his place and make charges in regard to campaign funds, he would be granted a commission or a committee of the House to go into the charges.

DISCLOSED THE SITUATION In three sentences, Mr. King had disclosed the situation in the case of his party, Mr. Bennett said. Last night Mr. King had stated that he had complained to Senator Haydon of the lack of funds to send out Liberal leaflets. "Senator Haydon goes out and gets the money," he continued. "Why would he not? Why would not a man who was in that relationship to the Prime Minister?" Mr. Bennett proceeded to read the remarks of Mr. King from Hansard, of his complaint to Senator Haydon that there were not sufficient party funds.

There was the story, said Mr. Bennett, that the Prime Minister had said that he was not going to make any statement as to whether or not the new management would be a public utility, but he said that it would be a new company, and that it would be a public utility.

THE Spotlight BY GRANTLAND RICE

(Copyright, 1931, by the North American Newspaper Alliance)

MAKES TWO TEAMS

The headline pace which Connie Mack's Athletics have set all season, especially through the last month, revives the argument as to how this present team compares with his 1919-1924 outfit.

Certainly the 1929-1930-1931 collection has opened a wider gap from the rest of the field. The old-time bunch won two pennants with something like 100 wins, and then finished back of Boston and Washington in 1932. This 1931 bunch isn't going to finish back of anything. The old infield was the stronger with McNamara, Collins, Barry and Baker, and while Bender, Coombs and Plank completed a great pitching staff, they had nothing on Grove, Barnaby and Walcott from time to time. No one can fairly finish a comparison until all the figures are in. It would be easier to round out the argument later when the statistics are completed, but for the first three years of the argument the present Athletics have at least something on the old-time line-up, as good as that was.

THE NIGHT GAME

Chicago has just opened a night golf course, to be given as much light as the sun supposed to offer. Over half the minor leagues are now playing night baseball. Night tennis came in with a rush when Tilden went over to the professional side and night fights, outdoors, are there any organizer in the world who, when confronted by his chief and told they had no money, who would not go out and get it?" asked Mr. Bennett. "These people got their order in council; they were diverting the River St. Lawrence; they breached the Hungry Bay dike, which they had no right to do. They went on just as they pleased; they were so sure that the Government would be returned that they thought they could afford to take almost any chance in the world."

"Why did they do so?" he questioned. "Any judge addressing a jury would say: 'It is for you gentlemen to say who is right. Well, there were 700,000 reasons worth each 100 cents on the dollar.'"

one of the Summer's features. There is a stronger drift to the night game than ever before, and with the improvement in illumination there will be an even larger night development.

One of the reasons why so much golf is played in Scotland is that one can start in after dinner and finish a round before darkness sets in. Thousands of workmen get their golf in this fashion, as the half light holds until 10 p.m. illuminating several miles of golf highway is no easy matter, but it can be done. The illuminations in the locker-room are handsome, however, with much greater simplicity.

SECTIONAL QUALIFYING

One of the great difficulties of sectional qualifying rounds in golf is the matter of handling quantity against quality. For example, there was a small entry list in the Seattle district and a large one around Detroit. Don Moe's 140 wasn't good enough to get in at Seattle, while 164 was fast enough to qualify in Detroit. Moe's score was fifteen strokes lower than that of others who qualified, but he was left out.

The quantity of the Northwest entry list was below that of many sections, but the quality was much higher. There are eight or ten golfers around Portland and Seattle who can probably outrank eight or ten rivals from any other district in spite of the numerical supremacy of the others. Willing, Moe, Stein, Dolp, Hogan, Shields, etc., are among the best in the game. It is easy enough to see the terrific pace set in the Northwest when 140 couldn't get through. Don Moe is quite good enough to win, but he was up against heavy qualifying odds.

Bill Burke and George Von Elm are to play Inverness again on Sunday. But part of the harrowing rough will be cut and the strain of the championship will be missing. Over half the minor leagues are now playing night baseball. Night tennis came in with a rush when Tilden went over to the professional side and night fights, outdoors, are there any organizer in the world who, when confronted by his chief and told they had no money, who would not go out and get it?" asked Mr. Bennett. "These people got their order in council; they were diverting the River St. Lawrence; they breached the Hungry Bay dike, which they had no right to do. They went on just as they pleased; they were so sure that the Government would be returned that they thought they could afford to take almost any chance in the world."

NO INTENTION OF RESIGNING

Senator W. L. McDougall Willing to Place Himself at Disposal of Colleagues

QUEBEC, July 31 (CP).—Senator W. L. McDougall, of Montreal, had a short conference with Premier L. A. Taschereau, of Quebec, today. The nature of the conversation was not made public.

In a brief interview with newspaper men, the Senator stated he had no intention of resigning his seat. He expressed lack of knowledge as to what was contemplated with regard to the Beauharnois project.

WILLING TO APPEAR

MONTREAL, July 31 (CP).—Senator W. L. McDougall today wired Senator R. Dandurand, of the private committee named to consider the report of the House of Commons special Beauharnois committee, placing himself at its disposal. Senator McDougall states in his telegram he feels his colleagues in the Senate will wish to render him British fair play, and that he will be given an opportunity of appearing before the committee "to make such statements and to give such evidence, if required, under oath, in substantiation in every particular of his honesty of purpose and of his faith at all times to maintain the high dignity of the Senate, and to promote the best interests of the country, regardless of his personal concerns."

SEES NO REFLECTION Senator McDougall, in his message, states that nothing in the testimony before the Beauharnois special committee as a whole in any just or fair interpretation tends to show that either his conduct or dealings reflected adversely in any manner upon the honor and dignity of the Senate.

Mr. McDougall sent a copy of his telegram to Senator W. B. Willoughby.

Fourteen Hurt in Grain Explosion

KANSAS CITY, July 31 (AP).—Explosions attributed to grain dust today burned or otherwise injured at least fourteen workmen at a railroad elevator in North Kansas City. Two of the injured were working in the yards near the elevator and were struck by window sashes blown out at the top of the structure.

The elevator, one of the largest in Kansas City, recently had been enlarged to hold 4,000,000 bushels of grain.

LONDON, July 31 (AP).—The Postmaster-General today refused a request of British postmen to wear their shirts open at the neck during the hot weather. He said that neckties were indispensable for upholding the proprieties of British dress.

Churches and Their World-Wide Work

Popular Bishop to Speak Three Times During Visit Here

On August 23 the Bishop of London Will Preach Twice in Cathedral, the Foundation Stone of Which He Laid Five Years Ago

THE Right Rev. Right Hon. A. F. Winnington-Ingram, Bishop of London, who laid the foundation stone of Christ Church Cathedral in September, 1926, and in whose honor the northwest tower is being erected, is expected to arrive in Victoria on Thursday, August 20, to visit his friend, Bishop Schofield, and spend five days in the diocese of Columbia.

While the Bishop's visit to Canada is in the nature of a vacation and for the purpose of seeing about thirty of his nephews and nieces in various parts of the Dominion, the popular ecclesiastic will hardly escape considerable publicity.

The local programme, which is tentative and subject to the Bishop's approval, will include a reception on the afternoon of his arrival by the Bishop of Columbia and Mrs. Schofield at "Bishopscloze" from four to six o'clock, the gathering to be under the auspices of the Diocesan W.A. On the Friday, at 6.30 o'clock, the distinguished prelate will address the Canadian Club, and on Sunday it is expected he will preach at morning and evening services at the Cathedral.

TO VISIT NANAIMO

The Bishop of London, on Monday, August 24, will accompany Bishop Schofield to Nanaimo, where it is hoped he will be able to lay the corner stone of the new church at noon. From there he goes to Vancouver.

The diocesan guest will be thrice welcome here. His earnestness and unaffected cordiality made a deep impression at his visit five years ago, and his episcopal act in laying the foundation stone was much appreciated. In addition, he has always been an active friend of the missionary work in British Columbia, and is president of the British Columbia and Yukon Church Aid Society. The Bishop himself will, no doubt, take great satisfaction in preaching in the Cathedral, which was completed and consecrated free of debt by the Bishop of Winchester three years later.

TRIP ACROSS CANADA

Arriving at Quebec on August 7, accompanied by Ormond Bligh, the Bishop will stop on the way to the Coast at Toronto, Edmonton, Jasper and Vancouver. The return journey from the Island will be broken at Vernon, Calgary, Regina and Winnipeg. From September 6 to September 23 the Bishop will be in and around Toronto and will attend the quadrennial meetings of the General Synod of the Church of England in Canada. The report of the Anglican North-Western mission, proposing, as it does, a forward policy for the church and suggesting many changes in the constitution.

Friend of Cathedral Returning Here

RT. REV. A. F. WINNINGTON-INGRAM, D.D.

Bishop of London, who is on a holiday tour in Canada, will spend first days on the Island and will preach in Christ Church Cathedral on August 23.

CURRENT TOPICS TO BE TREATED

Dr. Clem Davies Will Discuss at Capitol Theatre Anomalies of Present-Day Life

Speaking under the subject of "How Strange It Seems," Dr. Clem Davies will discuss in the City Temple pulpit, on Sunday evening, the anomalies of present-day life. He will have the following supplementary themes which are related to the main topic: Unemployment; Material Plenty and Human Want; Moralism and Increasing Armaments; Material Plenty and Human Want. In the morning the Temple minister will speak on "Is Life Worth Living?"

The music for the day is as follows: Morning anthem, "Lord, For Thy Tender Mercies' Sake" (Barrett); evening anthem, "While the Earth Remains" (Maudslayi); tenor solo, "The King's Highway" (O'Hara); A. W. Lucking, Services are being continued in the Capitol Theatre with the use of the grand organ.

MANY SALVATION ARMY SPEAKERS

Adjutant and Mrs. Sharp, financial officers for Vancouver Island, will lead the meetings all day tomorrow at the Salvation Army Citadel, Broad Street. They will be assisted by Envoy and Mrs. Houghton, now of Vancouver, but well known in Victoria through connection with the local corps some years ago. Several officers of the Grace Hospital staff are in the city today to assist with the tagging for the "Unseen Yet Eternal." A short organ recital will be given by G. J. Jennings Burnett before the service.
